for environmental & sustainable ini-
tiatives in central Arkansas. The mission
of the Arkansas Local Foods Initiative
(ALFI) is to serve as a catalyst and
educational resource for the purpose
of encouraging a healthy local food
system in the state. Sustainability,
nutritional health, social justice and
economic development in relation to
the local food system are the main
goals of ALFI. ALFI hopes to highlight
and further encourage the growth of
urban agriculture projects as well as
foster the relationship between rural
producers and urban consumers.

- Phone: 501.374.0622
- Web: www.argentacdc.org
- Description: Since 1992 Argenta CDC has been dedicated to creating safe thriving neighborhoods in North Little Rock through affordable housing development and by providing quality homeownership counseling to residents throughout Central Arkansas. As part of our mission we've recognized an obligation to use a more sustainable approach with our development practices. Thus, we launched Building Green in 2007. Building Green is a highly successful partnership between Argenta CDC and the Arkansas Chapter of the U.S. Green Building Council to design, construct and promote affordable energy efficient homes for low-to-moderate income families. Homes in this project have earned a Gold LEED-H® designation by the national US Green Building Council. Our homes were the first residential structures in Arkansas to earn such a distinction.
